

Our Programs

SCHOOL YEAR 2022-23 MID-YEAR IMPACT REPORT

Power Readers

Power Readers is a one-on-one mentoring program that connects elementary school students with volunteers to read together for one hour a week. Through these reading relationships, students build core literacy skills, expand their horizons, and develop essential social-emotional and interpersonal skills—all key indicators of future success in the classroom and beyond.

StoryTime

Reading aloud helps children build essential skills needed for future success. That's why StoryTime offers two ways for volunteers to share stories with children—by reading aloud from a selected text, modeling positive literacy behaviors and introducing important themes and concepts; or by presenting books that speak to their own experiences, such as career exploration or overcoming obstacles.

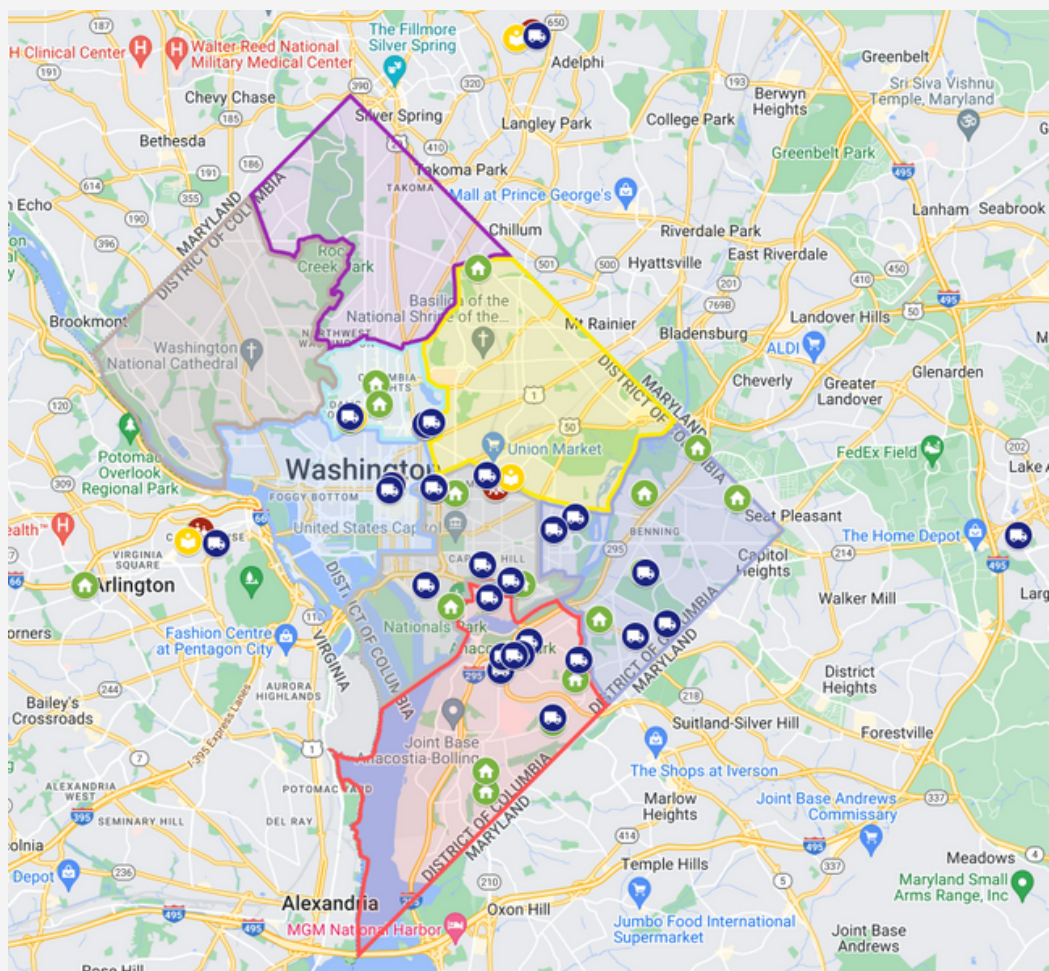

The Book Project

Having books at home helps children do better in school, build social-emotional competencies, and develop positive attitudes toward reading. That's why The Book Project distributes thousands of free books each year. The Book Project prioritizes books that elevate diverse characters and experiences so all young readers can see themselves and their dreams represented on the page.
